OBJECTIVE

I'm a motivated and detail-oriented Software Developer with hands-on experience building and deploying web applications, e-commerce platforms, and delivery systems. Proficient in Python (Django), JavaScript,, with strong knowledge of modern frontend frameworks (React and Tailwindcss) and databases (MySQL, PostgreSQL, MongoDB). Skilled in implementing secure authentication, responsive UI design and payment integrations (Paystack/Stripe). Experienced in project management, coordinating developer teams, running stand-ups, and translating business requirements into wireframes, mockups, and functional solutions.

EXPERIENCE

Jun 2023 — Oct 2024
Software Engineer, ALX Africa
Completed an in-depth program in programming and web development, specializing in backend development with Flask and building projects like an online bookstore and a medical services platform.

May 2024
Frontend Engineer, InternPulse
Completed frontend tasks including developing a responsive landing page and integrating third-party APIs.

Jan 2024
Frontend Intern, Women Techsters Bootcamp
Worked on an image editor web app, developed the backend for a task manager app using Django, and deployed a news website using Django.

May 2025
Web Developer/Project Manager, Xeta Digital
Led a team of 4 developers to build and deploy web applications, managing project timelines, enhancing UX/UI, and implementing secure, responsive features.
